

To set the trap use the pull cord until the metal bar of the trap is visible in the cut out slots of the unit top. Place the trap against a wall with the access points nearest the skirting board. Check the unit at regular intervals. If a rodent has been caught release the dead mouse into a plastic bag and dispose of in the refuse bin. Reset the trap and reposition as necessary.

# MOUSE TRAP IN A BOX

- Pre-baited, reusable, easily set trap
- Box protects children & pets from trap

## Effective mouse control

# MOUSE TRAP IN A BOX

The easy-set Nippon Trap-in-a-box Mouse Trap is guaranteed to kill mice while the enclosed mouse trap ensures children and pets are protected from accidental contact with the trap. When activated, the trap snaps shut killing the mouse and keeping dead mice from sight. The Nippon Trap-in-a-box Mouse Trap is ready baited and reusable making it ideal for use in the home where children and pets are at play, as well as in kitchens and food preparation areas.
