

ORCHID

drip feed

- Convenient and easy to use
- Slow release liquid feed
- Lasts for 2 - 3 weeks

ORCHID

drip feed

- For use throughout the growing season
- Nutrient boost for strong healthy plants
- For use in pots and containers 12-15cm diameter (two or three bottles can be used for larger pots and containers)
- One bottle should supply enough feed for up to 2-3 weeks when used in 12-15cm pots
- Do not repeat dosage within this period
- Water plants as normal

Directions For Use

Shake well before use.

Remove tip from drip feeder.

Invert bottle and push into growing media.

Bottle will now begin to drip feed fertiliser.

Store away from direct sunlight between 2 – 25° C.

Protect from frost.

Avoid contact with skin or eyes.

Wash hands after use.

Do not swallow.

Keep out of reach of children.
