Animal Repellent

The simple and effective way to help deter fouling by Cats & Dogs

FOR A GARDEN FREE FROM FOULING

Pepper dust is the simple and effective way to protect specific areas from cats and dogs. Pepper Dust can also be used on drives, paths, patios and around dustbin areas to deter cats and dogs from fouling.

INSTRUCTIONS FOR USE

When and where to use:

For use on surfaces in and around plants and areas not intended to bear vegetation. Deters cats and dogs from fouling. This product must only be used for the purpose of repelling cats and dogs. Pepper Dust can be used all year. Use in dry weather or when surfaces to be treated are dry. Repeat applications twice a week or after rain or high winds.

How to use:

Before treatment, thoroughly remove all evidence of previous fouling using a hose or other means. A weak detergent solution on fouled surfaces will help break down remaining odours. Apply a liberal dusting of Pepper Dust (around 30g per square metre) on the surfaces and surrounding soil.
