and Insecticides
Vitax Limited

A ready-to-use animal repellent for use around drives, patios and paths, grass, borders, fruit and vegetable crops, trees and shrubs. Stays effective for several weeks. Treats up to 37.5 m².

INSTRUCTIONS FOR USE

When to use: Ready-to-Use Stay Off protects plants and all areas of the garden from damage and fouling. Stay Off works by confusing the animal's senses of taste and smell and is effective against a wide range of nuisance animals including cats, dogs, rabbits and birds.

Where and How to use: For use on edible and non-edible crops, on drives, paths and patios.

Thoroughly remove all evidence of previous fouling using a hose or other means and a weak detergent solution where appropriate. Shake well. Lightly spray garden areas and plants to be protected prior to, or at first signs of attack, ensuring even coverage.

Re-application: Ready to Use Stay Off has an active life of up to twelve months depending on weather conditions but it is not systemic and a fresh application may be necessary on new growth.

Shake well before use. Protect from frost.

Ready-to-Use Stay Off contains 10.4 g/l aluminium ammonium sulphate MAPP 12099

To avoid risks to man and the environment, comply with the instructions for use.

FOR USE ONLY AS A HOME GARDEN ANIMAL/BIRD REPELLENT
