Liquid

Buxus Feed

A concentrated buxus feed for sturdy plant growth and green healthy foliage. The correct nutrition is the best way to ensure sturdy growth and greener and glossier foliage better able to withstand attack from pests and diseases. Liquid Buxus Feed contains all the major plant nutrients plus magnesium and trace elements making it the perfect feed for plants grown in pots as well as soil planted buxus.

WHEN TO USE

Apply every 7-14 days from early spring to late summer
(March to August).

APPLICATION

Fill a watering can with 4.5 litres of water. Mix 1 capful (20ml) Liquid Buxus Feed with the water in the watering can. Apply the diluted feed around the base of the plant until saturated.

Shake well before use.
Protect from frost. Store away from
direct sunlight between 0 and 30°C
