

# ORGANIC LAWN FEED

Chemical-Free & Plant-Based

Treats up to 100m<sup>2</sup>

The same area  
as approx. 10  
average size cars

Compound fluid fertiliser NPK 7:2:2		UK
Nitrogen (N) total	7%	
Phosphorus Pentoxide (P <sub>2</sub> O <sub>5</sub> )	2% (0.9%P)	
Phosphorus Pentoxide soluble in water	2% (0.9%P)	
Potassium oxide (K <sub>2</sub> O) total	2.0% (1.7%K)	
Potassium oxide (K <sub>2</sub> O) soluble in water	1.8% (1.5%K)	

Low Nutrient Fertiliser NPK		IRL
Compound with Organic Material 7:0.9:1.5		
Nitrogen (N) total	7%	
Phosphorus (P) total	0.9%	
Phosphorus soluble in water	0.9%	
Potassium (K) soluble in water	1.5%	

WATERING  
CAN

OR

SPRAYER

Treats up to 100m<sup>2</sup>

## ORGANIC LAWN FEED

The chemical-free way to green up lawns

Made from natural plant-based ingredients. This concentrated lawn food is rich in all the natural nutrients lawns need for healthy growth and is also suitable for use by vegan gardeners.

### How to Use

Shake the bottle before use. Apply at any time from March to September in wet or dry conditions, even on newly established or freshly germinated lawns. Apply 2 or 3 times in growing season to maintain grass vigour. For a high quality lawn, apply initially at the full rate followed by monthly applications at the standard rate shown below.

### Application Rates

**Watering can with fine rose or dribble bar:**

Mix 5 capfuls in 4 litres of water and apply evenly over 6m<sup>2</sup> (65 sq ft).

**Knapsack or other sprayer:** Mix 5 capfuls in 1 litre of water and apply evenly over 6m<sup>2</sup> (65 sq ft).

**Monthly applications:** Mix 3 capfuls in 1 litre of water (sprayer application) or 4 litres (watering can application) and apply over 6m<sup>2</sup> (65 sq ft).

**NOTE:** One capful contains approx 20 ml. To ensure even application, mark out the area in metre or yard wide strips. Children and pets may be allowed onto treated areas after application. Wash hands after use.

### Storage & Advice

Wash hands after use and wash splashes from skin.

Do not keep diluted feed.

We recommend using gloves when gardening. Store out of direct sunlight, in a cool dry place between 0°C and 30°C.

Keep the concentrated plant food out of the reach of children and pets.
