Fuchsia Feed

A high potash liquid fertiliser with added trace elements to promote strong healthy growth of fuchsias and improve flowering.

DIRECTIONS FOR USE

Fuchsias are vigorous plants which thrive in rich porous soil. When grown in tubs, planters or hanging baskets they require frequent feeding and watering. To achieve healthy growth and flowers feed with Vitax Fuchsia feed once a week, keeping the soil moist but not waterlogged. Never allow the fuchsia plant to become dry.

Vitax Fuchsia Feed can also be used on hardy fuchsias to promote healthy growth and flowers.

APPLICATION

Using watering can and rose:

Dilute 1 capful in 2 litres and apply weekly around the base of plants
