**Risk and Safety Information**  
Green Up Lawn Sand contains 14.1% w/w Iron Sulphate Heptahydrate  
**Causes serious eye irritation.**  
Wash hands thoroughly after handling.  
Wear protective gloves / eye protection.  
**IF IN EYES:** Rinse cautiously with water for several minutes.  
Remove contact lenses, if present and easy to do.  
Continue rinsing.  
If eye irritation persists: Get medical advice/attention.  
Take off contaminated clothing and wash before reuse.  
Keep out of reach of children.  
If medical advice is needed, have product container or label at hand.  
Read label before use.  
*Ireland only:* Dispose of contents/container to a household waste recycling centre as hazardous waste except for empty clean containers which can be disposed of by recycling or in the dustbin. Contact your local council for details.  
**To avoid risk to human health and the environment, comply with the instructions for use**  
MAPP 17043 PCS No 05414

**Warning**

## INSTRUCTIONS FOR USE

### WHEN TO USE

Green Up Lawn Sand can be used when moss is actively growing. Do not apply during drought or freezing conditions. To avoid drift of granules or dust onto plants, patios or ponds do not apply in windy weather.

Apply only to established turf. Grass should not be cut 3 days before treatment and not cut again until at least 4 days after treatment.

### HOW TO USE

#### Application by Hand

Mark out areas to be treated. Wearing gloves sprinkle evenly at 80 grams per square metre over the marked area.

#### Application by Spreader

Mark out areas to be treated. Apply evenly at 80 grams per square metre over the marked area with suitably calibrated granular applicator.

### Further information

The moss will blacken as it dies. Any discolouration of the turf is temporary.

Avoid walking on treated areas until it has rained or product has been watered in. If spilt on paving, concrete etc., brush off immediately to avoid discolouration. If no rain falls within 48 hours of treatment, irrigate treated area.

Dead moss can be removed by raking or scarify 7-14 days after treatment. Re-treatment may be necessary for heavy moss infestation, or if moss returns. Do not apply more than 2 times in any one season. Allow 40 days between applications.

### Moss Control techniques

Having an effective all-year round maintenance programme including the use of Green Up Lawn Sand is the key to reducing moss in lawns.

To help reduce moss;

- Ensure the turf is healthy, weed, disease and pest free with regular maintenance and applications of fertiliser.
- Aerate soil to help encourage the free passage of water & nutrients.
- Rake/scarify to remove dead mosses and fallen leaves to prevent the build-up of fibrous material which encourages weed and moss growth.

Following this guidance and using Green Up Lawn Sand will successfully reduce mosses in lawns.

### SAFETY INSTRUCTIONS

#### Protection during/in use

**WASH HANDS AND EXPOSED SKIN AFTER USE.**  
If swallowed seek medical advice immediately and show this container or label.

#### Environmental protection

**DO NOT CONTAMINATE WATER** with the product or its container. Do not clean application equipment near surface water. Do not empty into drains.

#### Storage and disposal

Store in a cool, dry place.  
**KEEP IN ORIGINAL CONTAINER**, tightly closed, in a safe place.  
**KEEP PRODUCT AWAY FROM CHILDREN AND PETS.**  
UK only: Unused product in its container may be disposed of in the dustbin.  
Ireland only: This material and its container must be disposed of in a safe way.
