

A water based ready-to-use product to control crawling insects such as ants, cockroaches, fleas and other household pests in and around the home.

Children and pets need not be excluded from treated areas once surfaces are dry.

DIRECTIONS FOR USE

Shake container well and spray from a distance of 30cm.

Ants, cockroaches and other household pests: Can be used as a direct spray when insects are seen or as a surface treatment (first spray a small test area when using on delicate fabrics, plastic or polished surfaces). Ensure surfaces are clean before applying the product and allow spray to dry after treatment.

Ant nests: Apply liberally around the entrance to the nest, under paving stones, walls and crevices or underground nests, along edges of borders and in lawns.

Fleas: Apply a light spray to carpets, soft furnishings and any areas where animals frequent, including carpet edges, cracks and crevices. Allow to dry and repeat as required.

STATUTORY CONDITIONS RELATING TO USE FOR USE ONLY AS AN INSECTICIDE.

Apply 40ml of product per square metre of surface. Spray from a distance of 30 cm. Users must comply in full with all their legal responsibilities under the Control of Pesticides Regulations 1986 (as amended), including complying with all Conditions of Approval.

READ ALL PRECAUTIONS BEFORE USE

HSE No. 8628 PCS No. 95369
