**HOW'S IT  
GROWING?**

We would love to see

@VITAXGARDEN

Cardboard box - Recycle  
Bottle - Remove sleeve before recycling

**NUTRIENTS**  
For happy,  
healthy plants

**MORE FLOWERS**  
Bigger, brighter  
displays

**CARE**  
Helps regrowth  
after flowering

## HOW TO USE

Use throughout the year. Shake well before use. Remove the cap from the drip feeder and push the open end of the drip feeder into the soil around the orchid. Water as usual. One drip feeder will supply enough feed for up to 2-3 weeks when used in 12-15cm pots. For larger pots use more than one drip feeder.

**TIPS** - Avoid over-watering orchids. After watering allow the compost to drain completely. Avoid strong, direct sunlight. Orchids thrive in humid conditions, to help with this we recommend using Vitax Orchid Mist.

Store in a cool dark place, between 2°C and 30°C.  
Protect from frost.  
Avoid contact with skin and eyes.  
Wash hands after use.  
Do not swallow.  
Keep out of reach of children.

\*Each drip feed lasts approx. 3 weeks depending on environmental conditions such as room temperature, watering routine and soil type.
