

ORGANIC

# Rose Food

Based on the traditional formula, Vitax Organic Rose Food contains the three major plant foods – nitrogen, phosphate and potash - together with natural magnesium to achieve healthy green leaves and abundant blooms.

100% Organic, made from Poultry Manure enriched with a high potash fertiliser derived from sugar beet.

The organic fertiliser improves the structure of the soil and allows nutrients to be released slowly, giving an abundance of blooms throughout the season.

## DIRECTIONS FOR USE

Note: 1 gloved handful contains approximately 25g

### For Established Plants

Apply 25g (approx 1 oz) evenly around the base of the plant in early Spring, keeping the granules off the leaves and stems. Hoe in lightly and water if the soil is dry. Repeat application in early June prior to the second flush of blooms.

### For New Roses

Mix 50g with the bottom soil, ensuring that the hole dug is both deep and wide enough to allow the roots to spread out evenly. The bud union should be 2.5cm below soil level when planting is completed.

ANALYSIS			
<b>COMPOUND FERTILISER</b>			
Nitrogen (N)	4.0	2.5	8.0
Total Phosphorus			4 %
Pentoxide (P <sub>2</sub> O <sub>5</sub> )		2.5%	(1.1% P)
of which soluble in water		1.4%	(0.6% P)
Total Potassium Oxide (K <sub>2</sub> O)		8.0%	(6.6% K)

## HELPFUL HINTS

Use in a well ventilated place and avoid breathing in dust.

Wear gloves when gardening and wash hands after use.

Store in a cool dry place away from children, pets and foodstuffs.

Bigger, brighter flowers and rich green leaves

Helps plants to stay healthy and strong

Slow release, promotes flowering all season long
