

Sulphate of Potash

A quick acting fertiliser which provides the essential nutrient potassium. Produces greater strength and vigour in plants leading to improved resistance to weather and disease. Potash also promotes the development and colour of flowers, resulting in high quality blooms and more abundant fruit yields. Vitax Sulphate of Potash is particularly beneficial to tomatoes.

DIRECTIONS FOR USE

Note: 1 gloved handful contains approximately 17.5g

Vitax Sulphate of Potash should be applied evenly at the recommended rate, hoed or forked into the top surface of the soil and if dry, well watered in. Shake off any fertiliser spilt onto foliage.

FLOWERS AND SHRUBS:

Prior to planting or sowing, 70 g/m² (2oz per square yard). As a top dressing for established plants, 35 g/m² (1oz per square yard) once or twice during the growing season.

VEGETABLES AND TOMATOES:

Prior to planting or sowing, 70 g/m² (2oz per square yard). As a top dressing, 35 g/m² (1oz per square yard) sprinkled evenly between the rows once or twice during the growing season.

FRUIT TREES AND BUSHES:

As a top dressing in early spring 140 g/m² (4oz per square yard) applied evenly over the area covered by the branch spread.

LIQUID FEED:

Vitax Sulphate of Potash may also be applied as a liquid feed. To make up dissolve 30g in 9 litres of water (1oz per 2 gallons) and apply in place of normal watering.

A fast acting feed for
the finest flowers
and juicy fruit

ANALYSIS

GB Fertiliser

SULPHATE OF POTASH 49

Potassium Oxide (K₂O)

Soluble in water

49.0% (40.7% K)

EC Fertiliser

SULPHATE OF POTASH 40.7

Potassium (K) soluble in water 40.7%

HELPFUL HINTS

Use in a well ventilated place and avoid breathing in dust.

Wear gloves when gardening and wash hands after use.

Store in a cool dry place away from children, pets and foodstuffs.

Read the directions carefully before use.

Do not exceed the recommended application rates.

Avoid fertiliser lodging on leaves and stems.

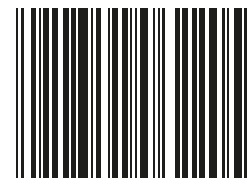

More flowers with
brighter, better
quality blooms

For larger, tastier
fruit. Great for
tomatoes

Can also be
used as a
liquid feed
