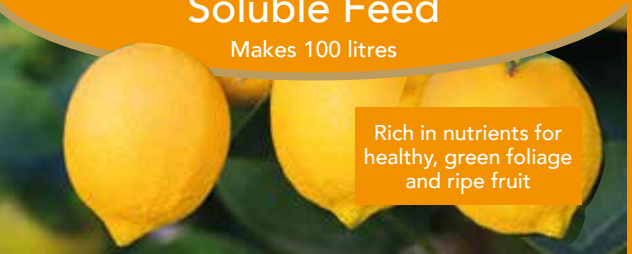
CITRUS

SUMMER

Soluble Feed

Makes 100 litres



A high nitrogen summer feed for citrus plants. This soluble feed helps promote leaf growth and general vigour and discourages premature ripening, fruit drop and leaf discolouration.

HOW TO USE

Mix 5g (1 teaspoon) of Vitax Citrus Summer Feed in 2.5 litres (4 pints) water and apply weekly from April to September. Ensure the compost does not dry out between feeds, keeping soil moist, but not waterlogged. After use, re-seal pack tightly and store in a cool, dry place.
