

#### HOW TO USE

After firming-in and watering the plant, carefully level the soil around the plant base. Hold the leaves clear of the soil, ease open the mat along the slit and carefully slide the mat under the leaves, smoothing it onto the soil.

Suppresses  
weeds and  
helps deter  
slugs.

# Mulch Mats

Keeps fruit clean and helps prevent rotting.  
Ideal for strawberries, lettuces and newly  
planted shrubs and roses.

Biodegradable

## Biodegradable MULCH MATS

Vitax Mulch Mats are ideal for use around strawberry plants, lettuces and newly planted shrubs and roses, helping to suppress weed growth, retain soil moisture and protect plant roots from extremes of temperature.

The mats keep the lower leaves and fruit clean and dry, helping to keep strawberries free from botrytis (grey mould) while also acting as an effective slug barrier.

#### WHEN TO USE

- Strawberries – when the leaves are growing well and flowers are beginning to develop.
- Lettuces – when leaves are growing well.
- Shrubs and roses – after planting.
